About Us

Cph Lighting is a Danish lighting company based in Hjerting, a seaside town on the West Coast of Denmark. Our mission is to create lamps that can withstand years of daily use in private and public interiors and will be cherished for generations. Our collection is designed and manufactured with the greatest attention to functionality, high quality, and low energy consumption. All wrapped in beautiful and timeless design.

The Cph Lighting collection is manufactured in Denmark. Components are produced by highly qualified and carefully selected Danish sub-suppliers and assembled in our own workshop. In this way we can secure hands-on control with product quality and fair labour conditions, and we contribute to keeping proud, traditional craftsman techniques alive in Denmark. Transportation of components and the finished products is reduced for the benefit of our planet. Furthermore, close access to our suppliers improves dialogue and flexibility, which gives us the ability to offer customized solutions, even at smaller quantities.

Our Designers

Guglielmo Berchicci

Born in Italy and a graduate in architecture from the Polytechnic University of Milan. Guglielmo Berchicci is a versatile designer and architect, renowned in Italy and abroad. Represented in the permanent collections of MoMA New York and Triennale Design Museum in Milan. Guglielmo Berchicci's work of architecture and design is inspired by his fascination with the complexities of nature and life.

Designs for Cph Lighting: The Eggy Pop collection.

Morten Flensted

Born in Denmark and trained as an electrician and electronic engineer before graduating as an industrial designer from Kolding School of Design. Morten Flensted's designs are characterized by his keen eye to details and his ability to combine technical requirements with an inviting visual expression.

Designs for Cph Lighting: Peak, Nola, and Cph Lighting logo design.

Tom Stepp 1950-2023

Born in Denmark and trained as a carpenter, building technician, and construction technician before graduating as an architect from the Royal Danish Academy of Fine Arts in Copenhagen. A background which gave Tom Stepp a pragmatic approach to the design process. Tom Stepp was known as one of Denmark's most renowned and productive designers.

Designs for Cph Lighting: Basic, Grid, Oblique, Perfo.

Nola

Design: Morten Flensted - 2018 / 2024

The Nola collection includes a table lamp, a wall lamp and a pendant. Nola exudes elegance and grace and is the perfect blend of beautiful design and functionality. Available in black and white with complementing details in raw brushed brass.

Nola Table White

Nola Pendant White

Nola Table is, thanks to its slender design, perfect as task light on a night table or work desk or as a decorative light source on a sideboard, book case or window sill. The tilt- and turnable lamp shade offers easy adjustment of the light direction. The on/off switch is positioned on the base.

Nola Table Black

Nola Pendant Black

Nola Pendant is small and slender, offering good directional light above e.g. a dining table or counter without blocking the view.

Nola Wall Black

Nola Wall is a small and elegant wall lamp with a tilt- and turnable lamp shade and on/off switch on the wall base. Perfect as a bedside lamp or reading lamp behind the sofa, at home and in hotels.

Nola Wall White

Nola Fixed base. A bespoke version of the Nola Table lamp used as beside lamps and desk lamps at the stunning 4-star Hotel Kong Arthur in Copenhagen.

Peak

Design: Morten Flensted - 2015

Peak is a unique pendant made of genuine and exquisite materials: Solid oak shade (natural, black stained or smoked) with gold plated cord grip and textile covered silicone cord. Delivered with a GU10 LED bulb, 60D light beam - perfect to illumiate dining tables and counters.

Peak Natural Oak

Peak Natural Oak

Peak Black Stained Oak

CPH Tubelight

Design: Cph Lighting - 2019

CPH Tubelight Bronze

CPH Tubelight is a family of ceiling spots available in three lengths and four colours: Vivid bronze, classic white and black and stylish brushed aluminium. The cylindrical shape, rounded edges and no visible screws exudes elegance and minimalism. Use same length or a mix for a decorative effect.

Breakfast restaurant Hotel Kong Arthur Copenhagen

Basic

Design: Tom Stepp - 1980

Basic is a classic pendant in spun aluminium with details in chromed steel and textile cord. Basic emits a pleasant downward directed light with its white painted inner shade. The lower ring elegantly screens off the bulb to prevent glare. The opening at the top allows the light to illuminate the rings for a decorative effect. Basic is available in three sizes in black and white.

Basic 400 Black

Basic 500 White, Basic 260 White, Basic 400 Black

Grid

Design: Tom Stepp - 2011

Grid combines modern and classic Scandinavian design. A refined interpretation of traditional industrial lamps used above metal lathes. The metal grid adds a twist to the design and prevents nosy fingers from touching the bulb. The recessed position of the light bulb allows Grid to hang high, without causing glare. The shade offers perfect reflection of the light whereby Grid to illuminate even large surfaces. Grid is available in seven Nordic colours.

Grid Beach at The Office Group (TOG) Euston, London
Oblique

Design: Tom Stepp - 1979

Oblique Floor Sand / Brass

Oblique is a timeless and classic collection of lamps with exceptional details, finish and functionality.
The on/off switch is an integrated part of the design, elegantly positioned on the tilt- and turnable lamp shade. Oblique emits a downward directed and asymmetrical light due to its oblique cut lamp shade. The shade is white lacquered on the inside for a perfect reflection of the light.
Oblique is available in a beautiful colour range with stem and joint in glossy chrome and solid brushed brass finish. The brass is coated with a transparent lacquer to prevent tarnish.

Oblique Floor can be placed next to a sofa or easy chair where it will offer perfect light for reading or indulging in creative pursuits. Oblique Floor is stirdy yet light - easy to move to another spot. Changing the light direction or turning the lamp on or off is handled within arm's reach on the lamp head.

Oblique Floor Sand / Brass

Oblique Table Sand / Chrome

Oblique Table lamp is elegant and versatile. It fits perfectly on a work desk, nightstand, book case, in the window sill or any other place where good directional light is required.

Oblique Table Black / Chrome. Photo: Anna T. Funder.

Oblique Wall offers high quality light by the bedside at home or in a hotel room, by the sofa or in the kitchen. Available with visible cord and hardwired.

Eggy Pop

Design: Guglielmo Berchicci - 2004

The Eggy Pop collection is inspired by a simple shape: The Egg. The iconic design and great functionality makes the Eggy Pop collection perfect for almost any interior style, both private and public.

The collection is based on three diffusers sizes ø32cm, ø55cm and ø70cm. The matching fittings determine the lamp model. The Eggy Pop collection includes floor lamps, table lamps, pendants, wall/ceiling lamps and an outdoor lamp.

The diffusers are made of rotation-molded opal white polyethylene. A 100% recyclable, UV-resistant and highly impact-resistant plastic material offering a pleasant and glare-free light.

The Eggy Pop Collection

Eggy Pop Pendant ø55

Eggy Pop In ø55

Eggy Pop In is a decorative and functional floor and table lamp in three sizes. The strong material makes Eggy Pop In suitable for use in public spaces. Available in three sizes with on/off or dimmable switch.

Eggy Pop Pendant ø55

Eggy Pop Pendant offers pleasant ambient light and is both functional and decorative. Perfect for private homes and public interiors. Eggy Pop Pendant hangs on a steel wire with a curved cord for an elegant and floating look. Use the pendant alone or in clusters, same size or mixed sizes for a decorative effect.

Eggy Pop Up is a decorative fixture for wall and ceiling. The discreet fixation provides a sleek and elegant look from all angles. Perfect alone and in decorative clusters.

Eggy Pop Up ø32

Eggy Pin Table

Eggy Pop Up ø32 and ø55. North Jutland Agricultural School, Lundbaek. Photo: Bjørk & Maigaard Architects.

Eggy Pin Table and Floor. The organic diffuser, elegantly elevated on the slim stem, emits a pleasant ambient light. Available as Pin Table, Pin Floor 32 and Pin Floor 55 with on/off or dimmable switch.

Eggy Pin Floor 55 and 32

Eggy Pop Out lamps add ambience to your outdoor space all year round and can withstand all weather conditions. Available in three sizes and three cable lengths. IP55. Accessory: Fixation bracket and fixation spear.

Arcus

Design: Cph Lighting - 2000

Arcus is a classic and robust outdoor armature made of hot-dipped galvanised steel. Suitable for private and public installations requiring a tamper-proof fixture designed to withstand harsh climates.
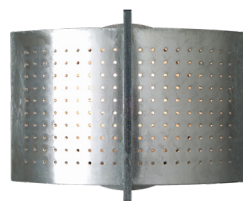

Perfo

Design: Tom Stepp - 2000

Perfo is a timeless and strong wall fixture made of hot-dipped galvanised steel. Perfo emits an indirect light and the perforated front cover creates a warm and decorative effect.
